What can you expect?

The primary purpose of Leadership Chula Vista is to strengthen participants' leadership skills, and make connections to local Government and Business Leaders, preparing them for future leadership in South County. Seminar topics are provided by local leaders that are subject experts and include: Government, Education, Growth, Health Care, Business, Safety Services, Community Outreach and a Community Tour. Guest speakers will be providing valuable information about their organization and its relationship to leadership and the community. This is a unique opportunity to build networks and gain valuable information about the community from current leaders!

As part of the program, participants will be asked to lead a project that will benefit the community and will have exclusive connections to current community leaders. Each session provides participants with the perfect opportunity to receive feedback from many valuable sources.

Building a strong business community together.
